
MEMORANDUM

TO: Physicians Laboratory's Clients

FROM: Kacey Moreland, MBA

SUBJECT: United Healthcare Participating Laboratory Providers

PHYSICIANS LABORATORY / IN-NETWORK PROVIDER FOR UHC

Recently United Healthcare (UHC) distributed a letter to several medical offices. This letter detailed information regarding in-network and out-of-network laboratories. Attached to this letter was a National Laboratory Affiliate Reference Guide that provided the most current list of national laboratory providers that are considered in-network for UHC.

We have received several calls from clients inquiring as to whether Physicians Laboratory is an in-network provider for UHC since our laboratory was not listed on the distributed reference guide. It is important to note that this letter only included national reference laboratories and did not include any local laboratories.

Physicians Laboratory is an in-network provider for United Healthcare. We want to assure our clients that we can process United Healthcare claims. Physicians Laboratory Services, Inc and Physicians Laboratory, PC are both listed as in-network providers on UHC's website UnitedHealthcareOnline.com > Physician Directory. If you have any questions or concerns please contact Kacey Moreland at 1-800-642-1117.
