

CPT UPDATES ~ JANUARY 1, 2014

Test #	Test Name	Previous CPT	New CPT
792	Caffeine, Serum	80299	80155
1026	Clozaril/Norclozapine	80299x2	80159, 80299
1578	Gabitril	82542	80199
8018	Keppra (Levetiracetam)	80299	80177
1525	Lamictal/Lamotrigene	80299	80175
1407	Mycophenolic Acid	80299	80180
1680	Neurontin (Gabapentin)	80299	80171
8023	Oxycarbazepine Metabolite	82491	80183
1728	Seroquel (Quetiapine)	82491	83789
9276	Zonegran / Zonisamide	80299	80203
7642	Trichomonas vaginalis by RT-PCR (One-Swab)	87798	87661
1987	Trichomonas vaginalis DNA Amplified (Liquid Based Pap)	87798	87661
7641	Leukorrhea Panel by RT-PCR (One-Swab)	87798, 87491, 87591	87661, 87491, 87591
2000	Chlamydia/GC/Trich Panel by PCR (Liquid Based Pap)	87798, 87491, 87591	87661, 87491, 87591

CHANGES IN IHC CODING ~ JANUARY 1, 2014

AMA CPT 2014

- 88342 Immunohistochemistry or immunocytochemistry, each separately identifiable antibody per block, cytologic preparation, or hematologic smear; first separately identifiable antibody per slide
- 88343 Each additional separately identifiable antibody per slide

HCPCS LEVEL II CODE

- G0461 Immunohistochemistry or immunocytochemistry, per specimen; first single or multiplex antibody stain.
- G0462 Immunohistochemistry or immunocytochemistry, per specimen; each additional single or multiplex antibody stain.
